## 1x6 Aye & Better WP4

- **Clear Grade** – *Classic Fine Grained Elegance*
- **Lots of “& Better”** – *No prior Grades are pulled from this material, thus Clear Vertical Grain is present*
- **Reversible** – *Use either the rough or smooth face*
- **Sanded Smooth Face** – *Removes any Imperfections from Moulding*
- **6’-16’ Random Lengths Odd & Even** – *Longer tally = Less Trim Waste*
- **Kiln Dried** – *More Stable, Less Surface Checking*

## TIGHT KNOT 2x6 CMEV1S

- **Tongue & Groove with an Edge V on 1 Side** – *Perfect for Roof Decking*
- **Kiln Dried** – *More Stable, Less Checking*
- **8’-16’ Even Lengths** – *Specified lengths = Less Trim Loss*
