

END MATCHED PINE

Kiln Dried Lodgepole Pine - Lodgepole Pine is fine grained, has small tight knots, and is extremely stable.

Premium Grade - Pyramid Peak products are graded after moulding to our specifications. This means the bottom 5-10% is pulled out *after* the products are run to pattern.

Superior Packaging - Pyramid Peak patterns are sub bundled, end capped, and all orders are paper wrapped.

Quality Finish - Pyramid Peak clear finish is the best in the business. This two coat process is sanded between coats and is UV cured. The end result is an exemplary finish that cannot be duplicated in the field.
