AYE & BETTER

SELKIRK

SELKIRK's Western Red Cedar Aye & Better program is **As Good As it Gets**. **MIDWEST LUMBER** stocks this grade in response to demands from you the customer. **SELKIRK's** Aye & Better contains only scarce pin knots providing you with more usable material.

Even more, while others use shorter drying schedules, **SELKIRK** monitors every kiln charge to ensure that your material is properly dried. This reduces splitting, cupping and checking while producing a product with superior stability.

- ⇒ **KILN DRIED CORRECTLY** — Superior Stability, Reduces Splitting, Checking & Cupping
- ⇒ **AVAILABLE 6'-16' R/L - SOME SPEC. AVAILABLE**
- ⇒ **FINGER JOINTED AVAILABLE IN 16's & 20's**
