**BESSEMER PLYWOOD** has been producing quality **ASPEN** products for more than 20 years! **ASPEN** is **lighter** in weight than both southern yellow pine or fir. It is an extremely **stable** product and **lays flat**.

With the opportunity to mix AC's, CD's, & U/L's on the same truck, it is easy to fill a truck and take advantage of **direct pricing**. Half trucks are also competitively priced with reasonable freight adders.

**MIDWEST LUMBER** keeps a **large indoor inventory** in order to assist you in providing a quality product to your customers.

# BESSEMER PLYWOOD
