

Authentic Look and Ready to Install

Shiplap is one of today's hottest trends in design. The classic look and adaptability of Fineline Nickel Gap Paneling makes our products the right choice for home interior projects.

Our paneling looks like authentic shiplap featuring the popular "nickel gap" and square edge joint, this is a hot product for today's market.

The Fineline Nickel Gap Paneling Advantage

- Offering the most authentic look and feel on the market today. Our product has a square edge profile with a 1/8" gap between the boards to ensure a seamless "nickel-gap" appearance.
- Fineline Nickel Gap Paneling tongue and groove installation process guarantees a professional look that is simple to install.
- We offer, in stock, Fineline Nickel Gap in ready to finish in-prime boards or knotty pine.
- Our product comes in either 6" or 8" widths to ensure an authentic look.
